

# Download & Activation FAQ

Q1: Which installations should download if just want to have a experience in software without hardware?

A1: Please download environment “Environment\_Labview 2015\_Installation Package(Needed Environment)” at first. Then download “Audio Software Platform\_AudioExpert\_Installation Package(Audio Test Software Platform)” to have a experience.

Q2: Besides “Environment\_Labview 2015\_Installation Package(Needed Environment)” and “Audio Software Platform\_AudioExpert\_Installation Package(Audio Test Software Platform)”, which driver should download additional if want to have a test with MegaSig Hardware?

A2: Please download “Environment\_VISA\_Installation Package(Used to identify hardware and com port)” and “Driver\_MegaSig Shuttle\_Installation Package(Used to drive MegaSig acquisition card)”

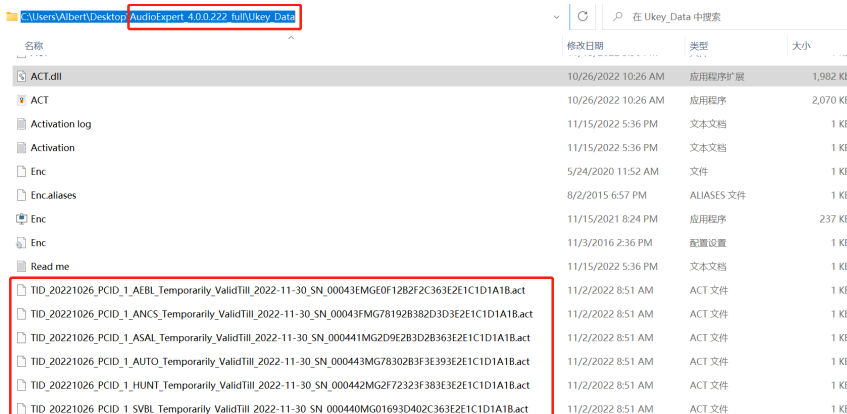

Q3: What is “Driver\_NIUSIAudio\_Installation Package(Used to recall waveform file)” used for?

A3: This driver is used to recall audio file such as .wav file into AudioExpert.

Q4: After downloading “Audio Software Platform\_AudioExpert\_Installation Package(Audio Test Software Platform)”, what should we do to make a temporary activation for AudioExpert?

A4:

1. Please ask “Temporary activation license for this month” from [support@megasig.com](mailto:support@megasig.com)
2. Move all the activation license into the “AudioExpert\_4.0.0.222\_full\Ukey\_Data”(Please refer to the downloaded software version and the path.)

3. Back to last level “AudioExpert\_4.0.0.222\_full” folder and open “AudioExpert.exe”
